

Sneha Sharma

UX DESIGNER & RESEARCHER · PRODUCT DESIGN · SYSTEMS THINKING

✉ design.snehasharma@gmail.com ☎ +91 98285 20215 🌐 snehadosux.com in LinkedIn

I design experiences the way architects design buildings: understand the structure before touching the surface, so what people feel is clarity, not effort.

ABOUT ME

I'm a Senior UX Designer with 6+ years across digital product and architectural practice. I specialise in platform design, systems thinking, and behavioural research; I bring a spatial, structure-first lens to digital experience that most designers don't. I've taken products from ambiguous brief to scalable solution across enterprise platforms, B2B tools, and consumer products, and I care deeply about design that makes complex things feel quietly easy.

UX WORK EXPERIENCE

Lollypop Design Studio

ASSOCIATE SENIOR UX DESIGNER

August 2023 – Present

Cement Manufacturing Brand: Enterprise Platform Consolidation

Platform Design

Design Systems

Enterprise UX

Workflow Optimisation

- Took full ownership of experience design for a platform unifying 7 fragmented applications (sales, finance, loyalty, supply chain) into one coherent product serving thousands of dealers and stakeholders.
- Built the interaction model and design system from scratch with scalable component logic and cross-functional workflows adaptable across verticals.
- Reduced cross-functional friction by an estimated 35% and meaningfully cut onboarding time for new user cohorts.

ACT Smart WiFi: Product Design

Product Design

Systems Thinking

UX Strategy

Usability Testing

- Owned strategy, IA, and end-to-end design for ACT's smart WiFi product: device management, usage control, and network security in a single unified interface.
- Translated dense backend logic into a layered model that progressively surfaced controls based on user intent, making advanced settings accessible across a wide user spectrum.
- Achieved ~30% reduction in task completion time across iterative usability testing rounds.

Zinnov: Decision Intelligence Platform

B2B Platform Design

Information Architecture

UX Strategy

- Redesigned IA and UX strategy for a decision intelligence platform used by global capability leaders, rethinking how research data was discovered, filtered, and acted upon.
- Structured discovery and validation flows so complex, multi-layered datasets felt navigable, built for senior stakeholders making high-stakes calls.
- Decreased time-to-insight by 40% through IA restructuring and contextual navigation improvements.

Green SM: Ride-Hailing User Research

Behavioural Research

Competitive Analysis

Insight Mapping

- Ran a full research cycle across Bangalore and Chennai: 30+ in-depth interviews mapping behavioural patterns, paired with end-to-end competitive benchmarking of 6 platforms.
- Synthesised findings into a structured insight framework that directly shaped product priorities and compressed the research-to-design handover cycle.

Proof of Concept Work: Peak XV (Sequoia), Banglalink, Surya Lighting, Sleep Number, G42

Concept Design

Behavioural Design

Innovation Strategy

Stakeholder Pitching

- Designed and delivered 5 strategic POC experiences across fintech, telecom, lighting, health tech, and AI, translating speculative briefs into testable product directions through behavioural principles and structured concept narratives.
- Achieved an 80% client conversion rate, with stakeholders using the artefacts to secure internal alignment and move projects into active development.

ARCHITECTURE WORK EXPERIENCE

Studio Ardete

ARCHITECT & OPERATIONS HEAD

Nov 2021 – Jul 2023

Space Designing

Sustainable Strategy

Project Management

Content Writing

Social Media Management

- Drove design and operations across award-nominated projects; created pitch decks for FOAID, ASHRAE, and ACETECH design awards; published on Arch Daily and Architectural Digest.
- Spearheaded a community initiative at Purwa Village: conducting primary research and shaping sustainable strategy across biodiversity, education, and natural building.

Hunnarshala · FM Garden City · SD Architects · MO:FA · The Traditionals · Hafeez Contractor

ARCHITECT | LEAD DESIGNER | FELLOW

2017 – 2021

Natural Building

Sustainable Design

Site Supervision

Construction Documentation

Stakeholder Management

- 4 years across residential, hospitality, institutional, and community projects, covering spatial systems thinking,, stakeholder management, and construction documentation.
- Contributed to tender presentations for IIT Tirupati and GFC drawings for the Jio World Convention Centre, BKC Mumbai at Hafeez Contractor.

EDUCATION

Post Graduate Certification: Intelligent Interaction Design

Indian Institute of Science (IISc), Bangalore

2023

Bachelor of Architecture (B.Arch)

Aayojan School of Architecture, Jaipur

2014 – 2019
